| | registered | \$ 100 | \$ 50 | n/a |
| Max Total | | \$825 | \$550 | \$ 345 |

We have been breeding and selling goats for over 10 years now, and have developed a pricing structure system and wait list we feel is very fair and true to current market values for quality stock. Quite simply, you get what you pay for.

Our parent goats are all Vet tested for CAE, CL and Johnes disease. All goats begin at the base price, with additions to price if they have certain features. For example if you are looking for a blue eyed, extra small, doeling the price would be \$450, or \$550 if registered. Please note our prices are not negotiable as for the past 3 years we have not had enough kids available to fill our wait lists, but are choosing not to raise our prices this year.

Thanks for understanding.

Thank you so much for connecting, please forward your questionnaire to pocketgoats@gmail.com. We will connect with you soon and keep you updated!
